- ❖ Secure Web Portal professionally hosted on our own servers in a Class 1 data centre.
- ❖ All sites are individually styled from a broad gallery of off-the-shelf designs and functionality.
- ❖ E-Commerce 'Phase Two' supports real-time direct and agent bookings into **t<sup>28</sup>/t<sup>3</sup>**, email ticketing and a choice of funds handling channels. Coach hire enquiry form available on request.
- ❖ The Funds Handling Channel can also be used by our **t<sup>28</sup>, t<sup>3</sup>** and **ph<sup>28</sup>** reservation systems.
- ❖ Monthly fixed rental includes hosting, web space, telephone helpline support, training credits and daily site content backup with offsite storage.
- ❖ Written in ASP.Net with Microsoft SQL Database and uses XML Web Services for real-time links to the reservation data held on your own premises.
- ❖ When you are ready, Phase One can be upgraded to Phase Two for the difference in current price.

## TRAINING COURSES

We cannot over-emphasise the value of good training and we now offer a range of courses for **Webres** users. The courses are well balanced half-day modules covering basic, intermediate and advanced operation of the programme. As an added incentive we are also offering free training credits with all new Roeville packages and annual support contracts - to keep users current with all the latest developments. Courses are run in Doncaster and include light refreshments.

### PLEASE NOTE

- i. All prices are subject to VAT at the current rate.
- ii. Each Training Credit can be redeemed against one person/day of training at our offices.
